

Dexter White

Junior Computer Science Major at Texas A&M | Plano, TX 75093

Phone: (972) 730-1705 | Email: dexter.w.white12@gmail.com | GitHub: <https://github.com/dexterwwhite>

Personal Website: <https://people.tamu.edu/~dexterwwhite/> | LinkedIn: <https://www.linkedin.com/in/dexterwwhite/>

Objective: To utilize data structures and algorithms knowledge, skills learned from projects, and communication and team collaboration abilities as a software engineering intern for this position.

Skills

- **Languages:** C++, Java, Python, HTML, CSS, JavaScript, SQL, Haskell
- **Technologies:** Unix, Sockets, Git, PostgreSQL, Python Flask, ReactJS, AWS Cloud9, gRPC, Node.js

Education

- **B.S. in Computer Science, Texas A&M University; College Station, Texas: August 2019 - May 2023**
 - GPA: 3.905, Favorite Classes: Programming Studio, Distributed Systems
 - Will be receiving my Aggie Ring (90+ hours at Texas A&M) in April 2022!!!
- **High School Diploma, Plano West Senior High School; Plano, Texas: 2017 - 2019**
 - GPA: 4.19, National Hispanic Scholar, National Honor Society, Varsity Wrestling

Work Experience

- **Teaching Assistant, Texas A&M University; College Station, Texas: September 2021 - Present**
 - Lead 30 students in my lab section through C++ programming assignments each week
 - Hold office hours for several hours a week, helping students work through and debug code, better understand discrete math, and assisting them with basic algorithm knowledge

Projects

- **My portfolio:** <https://people.tamu.edu/~dexterwwhite/portfolio.html>
- **Nutritist, Front-end:** <https://github.tamu.edu/santoshnibirlangi/nutritist>
 - Nutrition website, built with HTML, Bootstrap, CSS, JavaScript, Python Flask, PostgreSQL. Utilized 3 APIs to track user's foods, nutrients, and recommend recipes.
 - Focused on formatting and functionality of tracking, recipe, and home pages
 - Contributed greatly to frontend integration of API and database I/O
- **eyeTrain, Pygame interface:** <https://devpost.com/software/eyetrain>
 - Eye-tracking rhythm game for TAMUhack 2021 hackathon, won second place.
 - Handled the pygame interface of the game (collisions, music, and synchronization)
- **Content Streaming Service GUI:** https://github.tamu.edu/wyattsmith/CSCE315_Project2
 - Built with Java, Swing, and PostgreSQL. Recommends content based on watch history.
 - Implemented "Director's Choice" algorithm as well as designed most of GUI

Extracurriculars/Service

- **Aggie Miracle Committee Member, October 2020 - Present:**
 - Work with my committee for recruitment, set up, and logistics for our event, AggieThon.
 - Personally raised over \$450 for McLane Children's Medical Center in Temple, Texas
- **Aggie Web Developers Member, August 2021 - December 2021:**
 - Worked on small Node.js projects with other members each meeting
